This program offers customized, centered support towards an individual's personal needs and circumstances. No two grants are ever alike. We understand that breast cancer touches and affects every member of the family. When designing an Individual Grant, Chosen Butterflies considers the breast cancer patient's needs as well as the needs of the entire family.

Process

After careful and thorough assessment of the client's needs, Chosen Butterflies creates an individual grant that will best serve the needs of the client. It is our goal to work closely with each client to decrease or alleviate financial burdens. Findings show that when financial burdens are eased, less stress is experienced and a atmosphere more focused on the healing journey is present.

Chosen Butterflies Individual Grant Program provides financial support to breast cancer patients and survivors within 5 years remission (no evidence of disease) for the following types of expenses: medical procedures, prescription medications, COBRA insurance coverage, housing expenses, utilities, therapeutic treatments, transportation expenses, healthy and nutritious foods, and housekeeping services.
